

A man wearing a green polo shirt and a green baseball cap is reaching out his hand towards a brown and white cow. The cow is looking at the man's hand. They are in a grassy field with a white barn and trees in the background under a blue sky with light clouds.

Sustainability in Arla Foods

Innovationsfondens InnoTalk

Hanne Søndergaard,
EVP Marketing, Innovation, Communication and
Sustainability

19 November 2019

Our **sustainability strategy** supports the realisation of the UN Sustainable Development Goals

Improving the environment for future generations

6 CLEAN WATER AND SANITATION

7 AFFORDABLE AND CLEAN ENERGY

8 DECENT WORK AND ECONOMIC GROWTH

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

13 CLIMATE ACTION

14 LIFE BELOW WATER

15 LIFE ON LAND

17 PARTNERSHIPS FOR THE GOALS

Increasing access to healthy dairy nutrition & inspiring good food habits

2 ZERO HUNGER

3 GOOD HEALTH AND WELL-BEING

17 PARTNERSHIPS FOR THE GOALS

Arla Code of Conduct
Our responsibility throughout the value chain

We are stepping up our **commitments** on sustainability

Externally communicated ambitions

- CO2e
- Other KPIs

Note: 2030 targets are committed with: -30% CO2e reduction in 2030 under the Science Based Targets (offsetting not permitted) and -50% internal waste in kg under Champions 12.3.

Overall plan | We have established 2025 roadmaps across the value chain, focusing on 8 workstreams

Farm

Motivate and educate Arla farmers to more sustainable farming practices

Operations

Optimise energy use and increase share of renewable energy

Logistics

Optimise routes, introducing alternative fuels and piloting trucks of the future

Packaging

Optimise packaging types to reduce climate impact and increase recyclability

Food Waste

Limit internal waste and help consumers to reduce waste in own homes

Health & inspiration

Support consumers in choosing a healthy and sustainable diet

Int. Dairy Devt.

Support development of local dairy production in international markets

Communication

Drive awareness through communication across company, brand & market level

Consumer communication in Sweden and Denmark

Actively communicating concrete actions

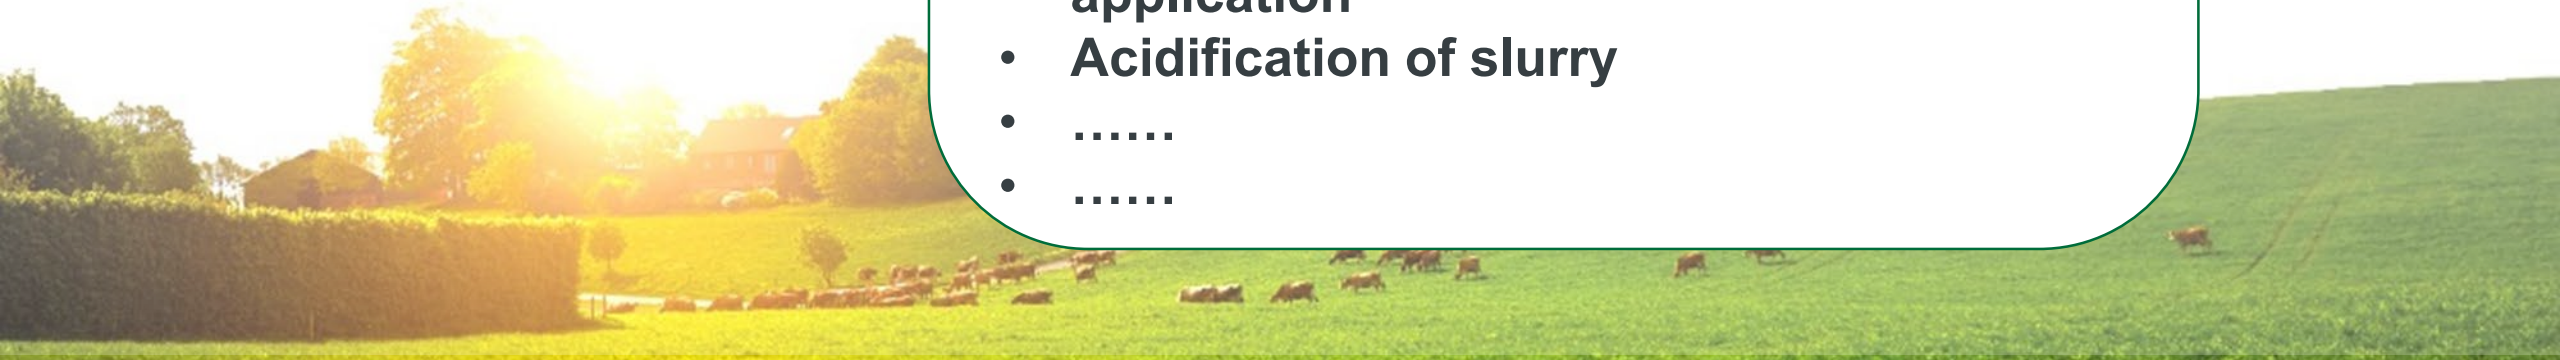

Reducing the CO₂e foot print on farm

Specific advice to farmers to reduce CO₂e emissions

Examples:

- **Less waste from silage storage**
- **Increase forage digestibility**
- **More fatty acids in the feed ration (rape seed)**
- **Reduce protein in feed**
- **Monitor feed use to optimise feed supply**
- **Less kg N/hectare**
- **Precision application of fertilizer**
- **Regular soil sampling to target nutrient application**
- **Acidification of slurry**

The Arla Farm 2050

Our vision for farming 2050 and the corresponding research requirements

- Education
- Finance
- Insurance

- Predictive
- Integrated
- Holistic

- Transparency
- Integration

- Metrics
- Resilience
- Efficiency

- Feed
- Rumination
- Energy

- Closed loop
- Precision

- Genetics
- Practices
- Prevention

Thank you
